

Secure Cloud Storage for Small Businesses

YDF.ai is Cryptoloc's solution for individuals and small businesses that want to store their files securely in the cloud, without compromising security.

small businesses and individuals that need a highly secure place to store their files in the cloud, YDF.ai by Cryptoloc offers the perfect solution, for a small monthly fee with no commitments or contracts. YDF.ai allows you to upload files in the cloud using the web portal or one of our free iOS, Android, Windows or Mac applications. Once you upload your files they are automatically encrypted using Cryptoloc's patented encryption technology. Additional features include the ability to create automated processes and workflows as well as providing a host of collaboration tools when working as a team. It allows Managers to define roles for their team and with our pay as you go SecureShare service (powered by Cryptoloc Secure 2 Client), you can send fully encrypted documents and request digital signatures straight from our free Microsoft Outlook Add-In. Businesses can get 1GB of storage space per user or purchase additional space if required. YDF for Business comes with a free 30 day trial and your own personal Business Account Manager, who can help setup your business on YDF.
